

BASIC ELECTRONIC TRAINER

Delta Electronic

Basic Electronic Trainer Delta Electronic adalah sistem laboratorium elektronik portable lengkap dalam hardcase premium untuk pembelajaran komponen dan rangkaian elektronik secara praktis dan terintegrasi.

SPESIFIKASI UTAMA

Assembly Board [DE-GSE 110]

Mountable to standard frame, 216 sockets, 297 x 300 mm

Power Supply [DE-PTE-015-01]

DC +5V, +15V, -15V / 1A, 220V input

Power Supply [DE-PTE-005-01]

DC +5V, +15V, -15V / 1A

Voltage/Current Source [DE-PTE-005-02]

0-12V DC / 250mA, 0-500mA current

Basic Meter [DE-KAL-41]

Voltage & Current DC measurement

Component Section

Diodes, Transistors, SCR, TRIAC, FET, Resistors, Capacitors, LDR, NTC, PTC, Op-Amp, Coils

Breadboard

830 tie points, reusable (25 pcs)

KEUNGGULAN DELTA ELECTRONIC

- Hardcase aluminium premium industrial
- Layout profesional dan modern
- Sistem modular lengkap
- Proteksi listrik (MCB & short circuit)
- Cocok untuk pendidikan teknik dan laboratorium
